To Collegiate Baseball Recruitment Staff,

My name is Jeremy Kirby. I am Brock Theilen's Varsity Coach at Santa Cruz High School. I coach the Santa Cruz Cardinals, Watsonville Aggies, and Rawhide Baseball Group. I myself played college baseball and have been heavily involved with baseball coaching and development for many years.

When I first met Brock as a Junior, it was obvious that he had potential. The power in his lower body and basic fundamental skills were extremely strong. As a left handed power hitter and pitcher, he fits extremely well into our program.

Brock routinely led our team in Wins, ERA, K's, and Innings Pitched. We could count on him game after game to pitch against the best there was. He was our workhorse on the mound as well as playing a solid first base. With a tall 6'4"+ frame, Brock has a very high ceiling for improvement.

I would not only highly recommend that you consider recruiting Brock Theilen as a starting pitcher/hitter, I would also strongly recommend that you consider him for his character as a young man and leadership on and off the field. I have coached hundreds of kids and I would not hesitate to say that Brock Theilen is absolutely one of the finest young men and baseball players I have had the privilege to coach.

Please do not hesitate to contact me should you need to discuss Brock's baseball history further.

Sincerely,

Jeremy Kirby
